

# Rubén Alejandro López Charles

Web Developer

---

## -ABOUT ME-

Currently looking for an opportunity to learn from the field of activities and services regarding Web Development.

## -EXPERIENCE-

**August 2018 – December 2018**

**Front-end Developer • TERNIUM**

Language: HTML, CSS and JS

Worked alongside Ternium and a team of three to develop a system from the ground up to track the location of employees and their schedules among other features. Duties Included designing the UI and building up the front-end.

**January 2019 – May 2019**

**Full Stack Developer • BEAUTIFUL PATTERNS**

Language: HTML, CSS and JS

Worked alongside a team of four to develop a website for a summer course in which students could register themselves, find information and receive notifications from the teachers. Duties included designing the UI, building up the front-end and implementing a database.

**January 2020 – Present**

**Front-end Developer • TERNIUM**

Language: HTML, CSS and JS

Worked alongside a team of five to redesign and build sites that are used by teachers and collaborators. Duties also include managing employees via SAP and maintaining a site where collaborators can sign up as volunteers for many projects the institution has to offer.

## -EDUCATION-

**August 2015 – Present**

**ITESM • Engineer in Computer Science (ITC)**

**July 2019**

**UDEMY • Certification in UX Design**
